Dear Mr. Hill:

On January 27, 1999, you were notified that a review of the above-referenced report(s) raised questions as to specific contributions and/or expenditures, and the reporting of certain information required by the Federal Election Campaign Act.

Your February 8, 1999, response is incomplete because you have not provided all the requested information. For this response to be considered adequate, the following information is still required.

-The Amended 30 Day Post-General Report shows that a contribution to the Price for Congress Committee on October 26, 1998, originally made to the Primary election, is now to be redesignated to the 1998 General Election. This action, however, does not resolve the question of excessive contributions to the Price for Congress Committee. Based on your reports, it appears that you have made a total of \$10,000 in contributions to the Price for Congress Committee for the General Election. 2 U.S.C. §441a(a) precludes a multicandidate committee and its affiliates from making a contribution to a candidate for federal office in excess of \$5,000 per election. Please amend your report with clarifying information and/or any corrective action your committee has taken in regards to the above contribution, as well as the other apparently excessive contributions brought to your attention in our original letter. Copies of the pertinent supporting schedules are enclosed for your information.
